## BOOK SYNOPSIS

Reason. Solve. Create. - The Insiders Guide to the ACT<sup>®</sup>; and SAT<sup>®</sup>; is the only guide written by private ACT<sup>®</sup> and SAT<sup>®</sup> teachers, each with 10,000+ hours of one-on-one experience. It is also the only guide written for both major college entrance exams: the ACT<sup>®</sup> and the SAT<sup>®</sup>. Whether you are retaking the test or preparing for the first time, this book will teach you everything you need to know to achieve your goals across all relevant domains: English, Math, Reading, Science, and Essay. Follow along as we clearly and concisely explain rules and concepts. Build your critical thinking and problem solving skills. Watch as we solve hundreds of sample questions, step-by-step. Practice with over 700 hundred questions. Study math formulas with an included formula sheet. Review over 1,000 defined terms in a detailed appendix. Learn insider tips, tricks, and strategies. Gain access to a personal instructor by pairing this book with our individualized teaching services. For the first time, Reason. Solve. Create is available to the public. Unlike other test preparation guides, it gives students the ability to supplement their self-study with one-on-one instruction from Moser Educational. For over 10 years, Moser Educational has been instructing students in college entrance and graduate school standardized exams on a one-on-one basis, and we now make our services available online. Our technology platform makes remote instruction incredibly effective. Student and instructor can share an online whiteboard, and share and annotate test questions and documents. Collaboration has never been easier. Furthermore, online learning sessions can be recorded, so classes are preserved for future reference. After the dramatic overhaul of the SAT<sup>®</sup> in the spring of 2015, more students than ever are interested in understanding which exam is best suited to their needs. Accordingly, we have rewritten and combined our curriculum to allow students to understand the similarities and differences between the ACT<sup>®</sup> and SAT<sup>®</sup>. Material that pertains to just one of the tests is plainly denoted, so students can use one book to prepare for one or both exams. And remember, with a simple email, text message, or phone call, you can have a live instructor available over the Internet to assist you as your work through the material. We can answer questions about any aspect of the testing process, put together a custom learning plan, and analyze practice tests scores. Reason. Solve. Create. is the most up to date test preparation guide on the market. It not only incorporates all of the changes to the SAT<sup>®</sup> but also integrates all of the recent changes to the ACT<sup>®</sup>, including the new comparative reading passage and the updated writing prompt.
