BOOK SYNOPSIS

Described as one of Spains foremost Golden-Age poets, Luis de Gongora generated a vast and complex poetic textual tradition through the creation, revision and dissemination of his verse. In later life, he authorized his friend Antonio Chacon to compile an anthology of his poetic works which had been in disarray for many years. Gongoras assistance in identifying the genuine versions of his poems and his participation in the compiling, editing and dating of these poems make the Chacon manuscript (1620) an authoritative collection of the poets verse. Nevertheless, it includes defective poems and, moreover, the plethora of variants, versions and imitations of his poetry raises questions of authorship and authenticity.
